

Zine with cover

This template works for both the 8 ½ X11" paper and the 11 x 17" paper.

Fold on the solid lines (to start also fold the dotted line)

Cut on the dotted line

Then fold the book

This diagram shows it in a simple way. See the full template before making yours.

There are different ways to approach making the zine. One way is to make 8 separate pages and tape or glue them to the template to copy. Another option is to make 4 double pages- this makes a spread. Then tape or glue to the template. For those that are computer savvy you could create a layout and drop your page designs in.
